

EUROPEAN KITCHEN DESIGN

2005 ASID AWARD OF EXCELLENCE

PRESENTS

“EVOLUTION OF KITCHEN AND BATH DESIGN” STYLE AND TRENDS

The American kitchen has evolved very little over the past 100 years. See where we have come from and where this special room is going in the future. From basic layout and function to advanced kitchen technology we will take an in-depth view of what it means to live in this modern world of kitchen design.

An award winner designer - Gioi Tran, and an award winning kitchen designer and brand development guru - Kevin Henry, will discuss the evolution of style and trends in kitchen and bath design. They will be showcasing award winning projects from conceptual through completion while highlighting all the key elements.

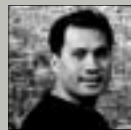

Please join us at European Kitchen Design's showroom for cooking demonstration with Chef Tina Ferguson-Riffe, fine wine and an informative presentation on kitchen and bath design.
